Product short description:

Tired of boring old generic black string lights? Have you ever wanted your string lights to have color and personality? Here at Creative Cables we've got just the lighting solution you've been looking for. We've created a system for outdoor string lights that allows you to make custom string lights that utilizes our cloth covered string lighting cord, light sockets, metal hook and rubberized plug to make string lights the way you want them. Choose from any color of our string light cord and then choose how ever many of our string light sockets you want. Place the sockets anywhere along the string light cord and just screw them in. That's it. You'll have light wherever you want with style. Use our custom string lights to illuminate your gardens, terraces and gazebos, decks or balconys!

Just select how many feet (up to 84 feet continuous) of string light cable in covered rayon fabric Black & White ZigZag CZ04 you need and configure your string light by adding the necessary accessories:
- Rubberized Two Prong Plug
- Metal Hook
- E26 light socket lamp holders
- Bulbs with an E26 fitting

Thanks to their unique colors and the completely customizable configuration, the String lights will make the atmosphere of your summer evenings magical: you can place hook and lamp holders where you prefer and where you really need them!

Registered design.

Attention! String lights have to be assembled with accessories and light bulbs, which are both sold separately.

Can't find the String light cable of the color you want? Contact us: we can make it specifically for you!
