Product price:

\$36.90 tax included

Product short description:

Custom string lights are the easy to configure solution from Creative-Cables that you can use to make a custom string light for any outdoor environment.

This junction box for our string lights comes complete with adaptors for both round and flat cables and is specifically designed for you to use with your custom Creative Cables string lights. Use them to add your own personal touch to your string lighting.

You can use this junction box to: - join two string light cables together, thus increasing its overall length, and/or pairing cables of different colours

- connect a string light cable with a round outdoor cable
