Product price:

\$1.20 tax included

Product short description:

UL Listed splicing connector for connecting wires from our pendant lighting to the electrical supply lines.

These are much easier to use than traditional wire screws. Just pull up the lever insert your wire and then press back down. The easy way to connect all of our lighting to your electrical wires.

Works with all of our cloth covered wire and accepts most flexible, semi rigid or rigid type wires from 24ga to 12ga.
