## Product short description:

Take the light and move it wherever you want!

With Spostaluce Metallo 90°, the brass metal adjustable light source with fabric cable, it doesn't matter where the connection is to your electrical circuit, because you only need to connect the cables and then just place the Spostaluce where desired on the wall.

The metal base is equipped with side holes, so that you can connect several Spostaluce in series.

Choose from the four models of textile cable that we have already selected, or request your favourite cable design to have a lamp customized just for you.

Attention! Light bulb NOT included.
