Product short description:

The cream and nut, thin stripes fabric Vertigo braided lighting cable sounds delicious, but the true value comes from its striking and detailed hypnotic design. The unique collection is masterfully designed in Italy with inspiration from the Hitchcock's psychological thriller of the same name.

This high-quality and hardwearing fabric provides a unique, bold HD effect, appearing to be hand painted. With a mixture of coloured and transparent threads that provides a neutral, yet bold final texture, it is both simple and memorable. This unique round cable will appeal to any creative and bold designers out there who are looking to add something different to your usual lighting options.

As with all our wiring at Creative-Cables, these cables are versatile, flexible and strong.
