Product title:

Wooden canopy for string light cable and Filé system. Made in Italy

Product attributes:

Finish: White, Black, Neutral

Product image:

Product price:

$30.00 tax included

Product short description:

Designed to create unique wall or ceiling decorations, Filé is Creative-Cables' system for expertly handling string light cables.
Match the wooden canopy with other products from the Filé system: a wall fairlead, a lamp holder and a terminal block. All components are Italian made.
Choose the finish that best suits your needs: the black and white coatings will allow you to create a minimal look, while the natural version will be perfect for more Scandinavian inspirations.

The kit includes a wooden rose of 80 mm diameter with a 20 mm hole, dowels with screws for ceiling or wall fixing and a blocking system for the string lights cable.

Product description:
