Product short description:

Our Silicone Socket light bulb socket kits are fun, whimsical and allow for all sorts of color and creativity in your lighting projects. The fact that they are scratch resistant and inexpensive makes them even better.

This are wonderful light bulb socket kits to use for spaces where you want to create a simple lighting design with an impressive result. These are compatible with any of our pendant light cables to make your own diy pendant light kit or plug in pendant light.

Note that when inserting the cloth wire into these socket covers you first must wrap the end of the cloth wire very tightly with clear tape and gently push and twist the cable while inserting it into the lamp cover.

Creative tip: Choose a matching or contrasting silicone ceiling canopy for your socket from among our selection of silicone ceiling canopies.

UL Listed: E190302

Be sure to check out our tutorial videos to learn how to wire up this silicone light bulb socket kit.

Product description:

Technical specifications silicone cover

Height: 3 - 15/16 inches (100 mm)

Diameter: 1 - 7/8 inches (47 mm)

Resistant to temperature fluctuations from -72° to +414° F

socket E26 in smooth thermoplastic with ground

UL Listed: E190302

Note that the interior light bulb socket has a built-in locking safety device that does not allow you to unscrew it once assembled. (This is to protect you from electric shock.)

We ship all our light sockets

not fully assembled and twisted closed

so that the built-in locking safety mechanism is not "locked" when you receive it.

If the safety device does somehow become locked you can unlock this security system, located

inside the socket on the side, with a small screwdriver. Please see our tutorial page for videos on how to unlock these light bulb sockets. And If you attempt to unlock the socket you must have the power

Disconnected

to the socket before inserting anything into the socket!

Product features:
