Product title:

Cement Light Bulb Socket Kit

Product attributes:

Finish: Light cement, Dark cement

Product image:

Product price:

\$14.20 tax included

Product short description:

Cement is one of the most flexible and widely used building materials in the world. This concrete light bulb socket can provide a modern, industrial, minimalist, or retro look for your home, office or restaurant lighting.

Each of these concrete light bulb sockets is unique due to the nature of the material, its porous surface and the manufacturing process.

Creative tip: Match this cement light bulb socket kit with one of our brightly colored cloth covered wires to create a pendant light (or plugin pendant light) with bold contrasts.

Please note: This product does not come with a light bulb.

This socket is UL Listed: E190302

Product description:
