x6

Product price:

\$99.60 tax included

Product short description:

Rose-One is the Creative-Cables line of ceiling canopies decorated with concealed cable clamp which, thanks to the numerous decorations available, allows you to create striking multiple pendants that are 100% in tune with your style.

The rectangular version with 6 holes is ideal for creating multiple pendants to be used above a large table, in a contemporary living room or serially to illuminate an open space.

Play with the lengths of the cables, the sizes and bulb finishes and create a multi-light pendant lamp with naked bulbs that will become a striking focal point!

Rose-One features side holes allowing you to connect more ceiling canopies serially or position the light pendants in relation to the ceiling light source.

The ceiling canopy cover is in Dibond®, an aluminium composite panel that guarantees excellent visual design, light weight and durability.

Configure your 6-hole rectangular EXTRA LARGE Rose-One ceiling canopy to create a multi-light pendant lamp customised according to your needs:

- use the menu to choose the colour of the base (white or black) and the decoration of the ceiling canopy: white, black or one of the brushed-finish metals.
- match Creative-Cables fabric cables according to the style you wish to recreate
- complete your lighting installation with the components, accessories and bulbs in our range.

Rose-One is a Creative-Cables patented product.

NOTE: the accessories to connect the ceiling canopy to the power line are not included in the kit, but can be bought separately.

Product description:

Ceiling canopy

Width: 520 mm

Length: 120 mm

Height: 35 mm

Material: metal
