Product short description:

Do you like the **industrial style**? Would you like to apply it to lighting? This pendant lamp with concrete lampshade is what you're looking for!

Thanks to its strong personality, **cement has recently established itself as a real and proper furnishing element** both in interior design and home decor.
With its geometrically irregular shape and contemporary design, the Prisma concrete lampshade is an ideal element to bring the industrial style you love to your rooms, changing the look of any environment.
We recommend you use it to **light a bar counter**, give light to your living room table in contemporary style or inside a New York style loft.

This chandelier is ready to be installed by expert hands and you can buy it already **complete with bulb**: we have chosen for you a transparent Edison ST64 LED light bulb with long filament which diffuses a warm light inside the lampshade, but alternatively you can take a look at our assortment of LED design bulbs to find the one that best suits your needs

PLEASE NOTE: Some of the images shown are examples of multiple pendant configurations that can be created by purchasing multiple suspensions. The item for sale is a lighting installation with only ONE pendant.

Product description:

Hanging lamp composed of:
120 cm of cable 3x0.75 of the selected color
1 metal canopy of the selected finish
1 E26 double ferrule metal socket
1 concrete Prisma lampshade of the selected finish L 130 mm

Light bulb [DG-ST64-CLEAR]: LED, ST64, 5,5W, 250 Lm, 2200K, E26, width 64 mm, dimmable

You can also purchase this lamp in the Matter-integrated version, for lighting control with your voice or the apps you already use regularly. Turn the lights on and off, create automations, and make your lights interact with other smart home devices easily and without the need for installation.

NOTE: If a wall switch is connected directly after the line cable, turning off the lamp will also cut off power to the Matter switch. Consequently, it will no longer be able to receive commands via

voice or app. However, once the light is turned back on from the wall switch, the Matter switch will be powered again and resume normal operation.
