Product short description:

You now get twice the beauty factor with this Creative-Cables pendant lamp featuring the Tub-E12 lampshade, thanks to the new version available with double Tub- E12 lampshade!

Tub-E12 is the ideal lampshade for all spotlight lovers: a very versatile lighting solution, capable of adapting to both domestic and commercial applications. Thanks to the new version, you now have even greater configuration options, making this pendant lamp perfect for your interior spaces!

The lamp design features brushed metal, copper, bronze or titanium finishes, in combination with white or black. The reflective properties of the metal ensure efficient light diffusion. Complete with double socket ring with E12 fitting, 1-hole, metal canopy and fabric cable, the lamp is ready to be ceiling mounted, taking centre stage!

The simplicity of this lighting solution makes it the perfect decor accessory for minimalist style interiors, or for those looking for a modern lamp, a solution for adding taste and elegance to your indoor spaces. You can buy the lamp with bulbs: we have selected the PAR16 bulb for you, but, alternatively, you can combine the R50 Satin Led bulb or a Led lamp with E12 fitting and a diameter under 50mm.

PLEASE NOTE: Some of the images shown are examples of multiple pendant configurations that can be created by purchasing multiple suspensions. The item for sale is a lighting installation with only ONE pendant.

Product description:

Pendant lamp comprising:

1 metal, one-hole canopy: ø 120 mm

1 E12 double, thermoplastic socket ring for each lampshade

Double Tub-E12 metal lampshade: ø 60 mm H 306 mm (H 153 mm each)

190 cm of 2x0.75 cable

You can also purchase this lamp in the Matter-integrated version, for lighting control with your voice or the apps you already use regularly. Turn the lights on and off, create automations, and make your lights interact with other smart home devices easily and without the need for installation.

NOTE: If a wall switch is connected directly after the line cable, turning off the lamp will also cut

off power to the Matter switch. Consequently, it will no longer be able to receive commands via voice or app. However, once the light is turned back on from the wall switch, the Matter switch will be powered again and resume normal operation.
