Product price:

\$23.05 tax included

Product short description:

The SI! lamp: simple on the outside with unique technology (patent-pending) at its core, that fully switched from 220V tension to 5V Thanks to the USB-C port you'll also be able to light up SI! through computers, smartphones and power banks.

The options for this lamp are endless: indoor or outdoor, plain surfaces or metal thanks to the magnetic base.

The SI! Lamp is the perfect blend of versatility, sustainability and design. We even decided to give up our staple piece: the cables. On top of that, every component can be easily removed and recycled/reused.

SI!, the first portable lamp without batteries is available in different finishes and we suggest you pair it with the Bebulbs 5V ST64 light bulb for a vintage and refined touch, and with a metal base - which comes with a protective scratch-resistant pad - with lateral fold: the perfect combination between lighting and decor.

And to be even more creative, pair the lamp to the AttaccaSI! metallic washer, to hang it wherever you wish.

PLEASE NOTE: it CAN NOT be powered using Apple's Lightning connector, still in use for the iPhone and some iPad models. Use a cable with USB-C/USB-C or USB-A/USB-C connectors.

Product description:

The lamp is composed by:

SI! Lamp holder in selected finishing:

Diameter: 50 mm

Height: 78 mm

Fitting: E27 max 4W

Rated voltage: 5V
