Product short description:

The Fermaluce Metallo 90° is a simple and effective fix if you want a wall flush light that can be easily adjusted in whichever direction you wish.

In fact, the E26 Fermaluce Metallo 90° socket may be tilted up to 90° and rotated by 315°, allowing you to point the light wherever you prefer, in broad areas of your home or over specific details.

Choose between the available finishes in order to best match the style of your interior.

Product description:

Diameter: 12 cm

Depth: 15 cm

Fitting: E26- Max 42 W

You can also purchase this lamp in the Matter-integrated version, for lighting control with your voice or the apps you already use regularly. Turn the lights on and off, create automations, and make your lights interact with other smart home devices easily and without the need for installation.

NOTE: If a wall switch is connected directly after the line cable, turning off the lamp will also cut off power to the Matter switch. Consequently, it will no longer be able to receive commands via voice or app. However, once the light is turned back on from the wall switch, the Matter switch will be powered again and resume normal operation.
