Product short description:

The Glossy Rust RM36 fabric-covered wire brings a warm, earthy tone with a refined sheen, making it a versatile choice for vintage and industrial lighting.

Our fabric-covered wire is wrapped in high-quality woven cotton, providing both protection and enhanced durability. Designed for flexibility, our cloth-covered cables resist wear while maintaining their shape over time.

All of our fabric-covered wire is available By the Foot, allowing you to order precisely the amount you need. Inside, each cable contains three individually PVC-coated copper wires (live, neutral, and ground), which are double-insulated with an additional flexible PVC layer before being wrapped in our premium fabric. Our wire is fully UL Listed (SVT-B) and rated for 300V, with a weight capacity of 7.7 pounds.

IMPORTANT: Due to UL regulations, cut-to-order wire is non-returnable. Only full, unopened 150' spools may be returned. Double-check your color and length selection before completing your purchase.

UL Listed: E496739

Product description:

Need help picking the right cloth-covered wire? Our fabric cables come in an array of colors, materials, and textures, and we're always introducing new stylish options.

Here's a quick guide to selecting the best fabric for your project: If you're after a modern, contemporary look, our rayon-covered wire, glitter-covered wire, and metallic finishes are excellent choices. For a more vintage or transitional aesthetic, opt for our premium Italian linen or cotton fabric-covered wire. And for that rustic, farmhouse-inspired vibe, our jute-covered wire is the way to go. You're in control of your design, but we're here to help reach out if you need advice on selecting the perfect cloth-covered wire for your DIY lighting project.

No matter your choice, you'll receive top-quality fabric cable, 100% crafted in Italy at our Torino-based factory.
