Product short description:

The Cotton Pale Pink RC16 fabric-covered wire features a soft, matte finish, adding a subtle touch of color to modern and classic lighting designs.

Our cloth-covered wire is encased in tightly woven cotton fabric, offering both protection and long-lasting performance. Flexible and durable, these fabric cables hold their shape while standing up to regular use.

All of our cloth-covered wire is sold By the Foot, so you can order exactly what your project requires. Inside, each cable contains three individually PVC-coated copper wires (live, neutral, and ground), which are further insulated with a flexible PVC layer before being wrapped in premium fabric. Our wire is UL Listed (SVT-B), rated for 300V, and supports a weight load of 7.7 pounds.

IMPORTANT: Per UL regulations, cut-to-order wire is non-returnable. Only full, unopened 150' spools are eligible for return. Please verify the color and length before completing your order.

UL Listed: E496739

Product description:

Looking for the best cloth-covered wire? Our fabric cables are available in a wide range of colors, fabrics, and finishes, with exciting new designs added regularly.

Here's how to find the right fabric for your lighting project: If you prefer a sleek, modern aesthetic, our rayon-covered wire, glitter-covered wire, and metallic finishes are great options. For a classic vintage or transitional look, our premium Italian linen and cotton fabric-covered wires are perfect. Want a rustic or farmhouse feel? Check out our jute-covered wire. While you create your own custom lighting design, we're here to help contact us for expert guidance on choosing the right cloth-covered wire.

Every fabric cable we offer is of the highest quality and proudly made in Italy at our factory near Torino.
