Product short description:

The Glossy Light Blue Grey RM30 fabric-covered wire combines a cool, muted tone with a subtle sheen, making it a sophisticated choice for lighting projects.

Our cloth-covered wire is wrapped in a durable, woven cotton fabric, offering both protection and a premium finish. Designed for flexibility and strength, these fabric cables resist wear while maintaining their shape over time.

We offer all of our cloth-covered wire By the Foot, so you can order exactly the length you need. Each cable contains three individually PVC-insulated copper wires (live, neutral, and ground), enclosed in an additional flexible PVC layer before being finished with high-quality fabric. Fully UL Listed (SVT-B), our wire is rated for 300V and supports up to 7.7 pounds of weight.

IMPORTANT: Per UL regulations, cut-to-order wire is not eligible for returns. Only full, unopened 150' spools can be returned. Double-check your color and length selection before placing your order.

UL Listed: E496739

Product description:

Choosing the right cloth-covered wire is simple: Our fabric cables come in numerous colors, materials, and finishes, with new styles added regularly.

To achieve your perfect lighting aesthetic: For a modern touch, our rayon-covered wire, glitter-covered wire, or metallic finishes are great options. If you're drawn to a vintage or transitional style, our premium Italian linen and cotton fabric-covered wires are ideal. For rustic or farmhouse-style lighting, our jute-covered wire is the perfect pick. You design it, and we're here to help reach out with any questions about selecting the best fabric cable for your DIY lighting project.

All of our cloth-covered wire is top-quality and 100% made in Italy at our Torino facility.
